    a)   knowledge-based systems

    b)   internet

    c)   biometric systems

    d)   digital systems.

x) Data mart is a

    a)   place where data are stored

    b)   place where outputs are stored

    c)   place where input are stored

    d)   user interface.

GROUP – B
(Short Answer Type Questions)

Answer any *three* of the following.   3 × 5 = 15

2. Briefly describe Data Warehousing.   5

3. What is SDLC and what are its various parts ?   5

4. a) Distinguish between data and information.   3

    b) What is planning ?   2

11705   4

5. a) What is IS strategy ?   2

   b) Briefly describe 'Business Process Reengineering'.   3

6. What is AI ? What is the difference between declarative & procedural knowledge ?   2 + 3

GROUP – C
(Long Answer Type Questions)
Answer any *three* of the following.   3 × 15 = 45

7. a) Define a system. Define an Information System (IS). Define Information Technology (IT). How is Information System different from Information Technology.

                                 2 + 2 + 2 + 3

   b) Briefly describe the Information System Framework with Diagrammatic representation.   6

8. a) How can you define a "Dynamic System" ? Briefly focus on different components of a dynamic system with example.   6

   b) What is a "Cybernetic System" ? How is this type of system different from a dynamic system ? Focus on the different components of a cybernetic system with example.   2 + 2 + 2

11705   5   [Turn over

    c)   What is an "Open System" and "Adaptive System" ? Give examples.   **3**

9.   a)   Explain Distributed Database Processing & compare it with Centralized Processing.

    b)   What are the advantage of a DBMS in a business information system ?

    c)   What is the difference between Exception Reports & Demand Reports ? Explain with an example.

    d)   What is Information Pyramid ?   **4 + 4 + 3 + 4**

10.   a)   What is ERP architecture ?

    b)   What are the measures required for ERP implementation ?

    c)   Briefly explain the term centralized transaction processing & client server computing.

    d)   What is knowledge based system & expert system.

        3 + 4 + 4 + 4

11. Write short notes on any *three* of the following :   3 × 5

     a)   Executive support system

     b)   Difference between MIS & TPS

     c)   End-User computing

     d)   Data warehouse

     e)   Advantage & Disadvantage of virtual office

     f)   CRM

     g)   Documentation

     h)   E-business.
